SUMMARY

MCA student with strong foundation in programming (C++, Java, Python) and hands-on experience in frontend development using HTML, CSS, and React.js. Skilled in Data Structures & Algorithms, databases, and problem-solving, with internship experience at an NGO. Seeking opportunities in software development roles where I can apply my technical knowledge, learn, and contribute to impactful projects.

WORK EXPERIENCE

Web Designing   **April 2024 - July 2024**

- Assisted in designing and developing user-friendly web pages for the NGO's website.
- Utilized HTML, CSS, and React.js to create responsive layouts and improve user experience.
- Collaborated with the team to implement design changes and optimize website performance.
- Gained hands-on experience in frontend development and design best practices.
